In July 2026, President Trump made an executive decision to reduce the size of the Bears Ears and Grand Staircase-Escalante National Monuments by approximately 90 percent. As of September 2026, mining companies are pursuing new mining claims on land that was cut from Bears Ears and Grand Staircase-Escalante National Monuments, with several claims already filed. Do you support or oppose opening these areas to mining?

If a candidate for state office supported selling national public lands to private buyers or transferring national public lands to the State of Utah to open more lands to roads, mining and development, would that make you more or less likely to support them?
